

ENROLLMENT STEPS

Step 1: Have your enrollment documents ready to upload.

Required documents are as follows:

- Student(s) birth certificate
- Parent ID
- Complete immunization record or waiver
- Proof of Residency

Step 2: Go online to the New Student Enrollment Application.

This will create a temporary Skyward account for you to complete your child(ren)'s enrollment application.

If you already have a student attending Lakeview, login to your existing [Skyward Parent Access](#) account and complete a new student enrollment application.

Step 3: Complete all sections of the enrollment application.

One of the sections of the application will ask you for your documentation - this is where you can upload your necessary documents listed in Step 1.

You can submit the application without the documents uploaded. Please know that your application will take longer to process without the documentation provided.

Step 4: Submit the enrollment application and wait to hear back from our enrollment office.

Our enrollment office will review your application and contact you by email or phone if any additional items are needed.

Step 5: You're enrolled!

The enrollment office will notify you of your child's start date** and your child's school building will reach out to welcome you and answer any questions!

***The start date for a high school student is dependent on scheduling a meeting with our LHS counseling team to examine your student's credits and course selection.*
